

Model : EQ-125

Compact Portable Moisture Meter

Cost Effective moisture meter which has a wide application to measure the moisture level in Cardboard, Paper, Timber and any hardened materials. Instrument incorporates other features like Low Battery Indication, Auto Power off, etc.

The protective cap of the instruments acts as calibrator Checker which is very much helpful for instrument verification on field.

Specifications

Measuring principle	Electrical Resistance
Measuring Range	Range A - 6 to 44%
	Range B – 0.2 to 2.0%
Display Accuracy	± 1%
Electrode Length	8mm , Replaceable
Battery	3 × Cr 2032
Housing	Impact proof plastic housing
Operating Temperature	0 to 40°C
Dimension	140 X 48 X 33
Weight	93gms
